

Nonfatal occupational injuries and illnesses in MO in 2005 Manufacturing sector

Missouri had a higher incidence rate than All United States for the major industry sector of manufacturing.

Manufacturing was the goods-producing major industry sector and the goods-producing sector (NAICS 31-33) with the most nonfatal occupational injuries and illnesses with 24,400. Manufacturing accounted for 71.6 percent of the goods-producing and 23.8 percent of the total private industry injuries and illnesses.

Manufacturing was the goods-producing major industry sector with the highest incidence rate of nonfatal occupational illnesses at 120.6. Manufacturing was the goods-producing major industry sector and sector with the most total illness cases with 3,700.

Primary metal manufacturing (NAICS 331) was the manufacturing subsector (3-digit NAICS code) with the highest nonfatal injury and illness incidence rate (per 100 full-time employees) with an incidence rate of 13.1.

Fabricated metal product manufacturing (NAICS 332) had an incidence rate of 78.6 (per 10,000 full-time workers) for total cases of nonfatal occupational illnesses in 2005. This was an increase from the 2004 rate of 36.1.

There were 17 industry subsectors (3-digit NAICS code) within the manufacturing sector that had data reported in 2005. Transportation equipment manufacturing (NAICS 336) had significantly higher number of injury and illness cases; significantly higher numbers of injury cases; significantly higher number of cases with days away from work, job transfer, or restriction; and significantly higher number of illness cases. There was no significant difference between the incidence rates of the subsectors.

Industry	NAICS code	Number of injuries and illnesses (in thousands)	Number of injuries (in thousands)	Number of cases with days away from work, job transfer, or restriction (in thousands)	Number of illnesses (in thousands)
Manufacturing	31-33	24.4	20.8	12.9	3.7
Food manufacturing	311	3.0	2.5	1.6	0.5
Apparel manufacturing	315	0.2	0.2	0.1	<15
Leather and allied product manufacturing	316	0.1	0.1	<50	<15
Wood product manufacturing	321	0.7	0.7	0.3	<15
Paper manufacturing	322	0.7	0.6	0.5	0.1
Printing and related support activities	323	0.6	0.6	0.3	0.1
Chemical manufacturing	325	0.7	0.6	0.4	0.1
Plastics and rubber products manufacturing	326	1.5	1.4	0.9	0.1
Nonmetallic mineral product manufacturing	327	0.6	0.6	0.4	<15
Primary metal manufacturing	331	1.3	1.2	0.5	0.1
Fabricated metal product manufacturing	332	2.7	2.4	1.2	0.3
Machinery manufacturing	333	2.3	2.1	1.1	0.2
Computer and electronic product manufacturing	334	0.2	0.2	0.2	<15
Electrical equipment, appliance, and component manufacturing	335	1.3	1.2	0.6	0.1
Transportation equipment manufacturing	336	6.0	4.2	3.2	1.8
Furniture and related product manufacturing	337	1.1	1.0	0.6	0.1
Miscellaneous manufacturing	339	1.0	0.9	0.5	0.2

Dairy product manufacturing (NAICS 3115) had an incidence rate of 5.7 in 2005, a reduction from 9.3 in 2004. Pharmaceutical and medicine manufacturing (NAICS 3254) had an incidence rate of 2.3 for nonfatal occupational injuries in 2005, a reduction from the 2004 rate of 4.1.

The food manufacturing subsector (NAICS 311) was further divided into industry groups (four-digit NAICS codes), industries (five-digit NAICS codes), and United States industries (six-digit NAICS codes). Animal slaughtering and processing (NAICS 3116) was the manufacturing industry group with the highest number of cases of injuries and illnesses; the highest number of injury cases; and the highest number of cases with days away from work, job transfer, or restriction.
